

24 April 2001

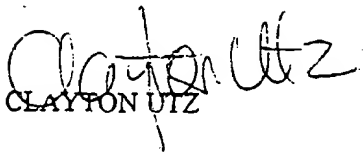

In view of the fact that your client's claim is beyond the jurisdiction of the Commission, we invite your client to withdraw his application forthwith. In the event that your client pursues his claim, we reserve our client's rights to refer to this letter on any question of costs.

Finally, we note that clause 15 of the Agreement clearly states that any intellectual property created by your client within the scope of his employment by our client was to be owned by our client. Your client has previously been requested by our client to execute documentation to transfer ownership of the patent for the "Z-Axis Tracker" to our client. You have yourselves been provided with a copy of the relevant portion of the Agreement. Further, we are instructed that your client has previously executed such documentation in the past, without controversy. Notwithstanding, your client has declined to respond to our client's request.

The matter has now acquired a degree of urgency. Please provide us with your client's confirmation that he will execute those papers required to transfer ownership of the patent to our client, and to enable our client's application in respect of it to proceed. We enclose herewith the documentation required to be executed by your client for your consideration. Alternatively, please provide us with the basis for your client declining to so act, contrary to his previous practice.

We look forward to hearing from you on an urgent basis.

Yours faithfully

CLAYTON UTZ
